

COMPLEMENTARY SERVICES

1. LA CASITA has a fireplace in the living room. If you want to use the fireplace (only from November to March, both months included) you can hire the firewood supply. Cooking food is not allowed by or through the fireplace. CLIENTS are responsible for due care in order to avoid fires or poisoning due to smoke inhalation.

2. The damage, failure or deterioration that may occur due to misuse of the fireplace is CUSTOMERS responsibility.

FIREPLACE USE RECOMMENDATIONS:

- Do not try to light the fire with flammable products. Always use specific pills to light the fire.
- Do not place furniture or objects that are easily flammable near the fireplace
- Do not let children play with the fire
- Overloading the chimney leads to lower performance and higher consumption, and may cause damage to the walls, ceiling and objects.

3. There is the possibility of using the portable barbecue. A bag of charcoal can be supplied at the request of the CUSTOMERS, as well as the necessary elements for its ignition and utensils (tongs, trowel and skewer).

Also, if this request is done with sufficient notice, a range of food they may need can be supplied.

4. Upon customers request, necessary breakfast foods can be provided for each of the days of their stay, such as butter, jam, sliced bread, milk, coffee, etc.

5. There is the possibility of hiring an equine experience. The equine experience consists of an activity of approximately between 60 and 90 minutes in which a first contact with the equine world may be experimented.

The basic horse handling will be taught, from its cleaning and preparation to performing a mount in an indoor enclosure. For this activity it is necessary to wear suitable footwear. LA CASITA will provide helmet and protective vest.

6. Complementary services prices can be consulted in the RATES section.
